## INFORMATION

## WANTED BY THE COMMITTEE

Statements of Complaint Relative to Local Conditions Will be Especially Welcome.

Today's Legislative Hearing Will Relate to Control of Finances of Public Service Corporations, Wednesday's to Control of Rates and Thursday's to Control of Operation.

Hearings on special subjects connected with the Public Utilities Bill have been assigned by the Special Committee to which the Bill was referred as follows:

Tuesday, June 1, 2:00 P. M. As to control of management and operation of public service corporations.

Wednesday, June 2, 2:00 P. M. As to control of rates of public service corporations.

Thursday, June 3, 2:00 P. M. As to control of management and operation of public service corporations.

It is current rumor that the Special Committee intend to report some sort of a measure. The character of the bill to be reported will largely depend upon the facts and opinions presented at these hearings. It is consequently of the utmost importance that every person interested in any form of a Public Utilities Bill be present at these hearings and give the Committee pertinent information concerning local conditions. The members of the Committee necessarily can have no knowledge of local affairs except such as is furnished them at these hearings.

It is the duty of every public spirited citizen interested in the honest issue of securities by public service corporations to be present at the hearing on Tuesday. The need of some legislation is attested by the history of the Connecticut Railway & Light- ing Company and of the Shore Line Electric Railway Company among others. The bill recommended by the temporary commission provided that public service corporations should issue securities for full value of the stock should be issued for not less than its par value and bonds for not less than market value. These provisions would stop present practice of building trolleys and establishing lighting plants on the proceeds of bond issues, and then compelling the public to pay dividends on stock given to promoters.

The bill recommended also provided that the proposed commission might audit the accounts of these corporations when necessary, or when requested by twenty-five per cent. of the stockholders. This would prevent the misuse of stockholder's funds by unscrupulous management. Similar powers are given the insurance commissioner and bank examiners in connection with insurance companies, savings banks, banks and trust companies.

It is difficult to understand why it should require so much effort to obtain such apparently desirable legislation; yet it is clear that a very substantial effort will be necessary if current reports are to be credited. We accordingly hope and believe that many of the public spirited citizens of this state will be present at the hearing on Tuesday, to point out to the Committee the evils which have resulted from over capitalization in this city and to urge reasonable and sane legislation which shall protect the small investors and the public which pays the bills.

Every one who is dissatisfied with the charges made by any public service corporation in this city should state his grievances to the Committee on Wednesday. If there are no complaints the committee will properly conclude that there is no need of any legislation in reference to rates, and that the numerous bills which are presented to every General Assembly for the regulation of trolley fares or charges of lighting companies are without foundation. But the complaints presented on Wednesday are sufficiently numerous and well-founded we may reasonably expect some effective action to be taken by the present General Assembly.

The hearing on Thursday will be devoted to those who believe that the service rendered by public service corporations could be improved or the public safety increased by effective legislation and supervision.

It is seldom that so good an opportunity is offered to the people to be heard on questions of such paramount importance. The opportunity should not be lost. All public spirited citizens should attend these hearings and should assist the Committee by giving it all possible information concerning local conditions which may be in any manner pertinent to the questions before the committee.

## A SMALL RED SPOT

Novel Experiment by Which It May Be Made to Disappear

A peculiar feature about poslam, the new skin discovery is that no one is asked to buy it without first sending to the Emergency Laboratories No. 52 West Twenty-fifth street New York City, for an experimental sample and applying same to an affected part of the skin, about the size of a silver dollar. It will clear the spot so treated in twenty-four hours—a remarkable visual demonstration of its powers.

While poslam has been mentioned principally in connection with the cure of eczema, the most stubborn of skin diseases, it must be remembered that when used for itch, hives, pimples, blotches, acne, itching feet, scaly scalp, chafing of infants and similar minor skin troubles its action is all the more pronounced, results being seen after an overnight application. As only a small quantity of poslam is necessary to cure such cases, a special fifty-cent package, usually sufficient, has been placed on sale at Jennie Hamilton's Pharmacy and other leading drug stores in Bridgeport and throughout the country.

## VAUDEVILLE'S BIG HIT

Smith's Theatre Crowded With Big Audiences Both Afternoon and Evening Yesterday.

At both afternoon and evening performances yesterday, at Smith's theatre, the big house was filled with enthusiastic audiences, and the applause showered upon the talent which appears for the third week of Jackson's summer vaudeville attested that this week's bill meets with perfection and complete approval.

The only act of its kind in America, the Sisters Cardowine, Europe's original premier international dancers, is the big feature of the program for this week. This act, is a spectacular one, of English, German, Irish, Scotch and American dances, in handsome and appropriate costumes. The Cardowine Sisters have an international reputation as the best dancers on the stage.

Warren & Brockway, in a comedy musical act, "The Musical Janitor," constitute another especially taking feature of this week's bill. Their comedy is of the cleanest, most enjoyable sort, and their manipulation of the many musical instruments used by them always evokes the admiration and the hearty applause of their audiences.

Estus, an equilibrist of renown, is an added feature to this bill. His act is a novelty.

Italia, a character singing and dancing comedienne of exceptional ability, is best known in the profession as "the girl who writes the songs she sings." This is an exceptional thing among vaudeville performers. Italia is a charming young lady, and a clever performer.

Cunningham & Devery, eccentric dancing and singing comedians, make the fifth of the big acts which are shown this week. They have a fine sketch and their work is worthy of exceptional praise.

## DEATH OF FORMER OWNER OF STAFFORDSHIRE

Thomas E. Lowe, who long conducted the Staffordshire House, Wall St., a resort liberally patronized for many years by the English residents of the city, died very suddenly yesterday morning at his home 565 Central avenue, at the age of 67. Although he had not been feeling well of late, he was around as usual up to Sunday night and went to bed apparently in his usual health. He owned land in Stratford, and was comfortably well off. He is survived by a widow and his brothers, Luke and Sam.

## LYON NAMED FOR PRESIDENT AGAIN

Henry W. Lyon, this city, received a second election to the presidency of the State Assoc. of Postmasters of Connecticut, at the Stratford. Other officers were elected as follows: John T. Boylan, Waterbury, first vice president; Arthur E. Peale, Norwich, secretary; W. L. Wilcox, Windsor Locks, treasurer; H. H. Lyon, of this city, delegate to the national convention to be held in Indianapolis, Indiana, Labor Day; Arthur E. Peale, of Norwich, alternate to the national convention.
